BH-MT-GDC

Medical grade HDPE guidewire/microcatheter dispenser coil

Features/Applications:

BH-MT-GDC medical dispenser coil is manufactured from medical-grade HDPE. It features excellent mechanical strength, rigidity and electrical insulation. Designed for sterile storage of guidewires and microcatheters, it protects the guidewire tip and hydrophilic coating against kinking and scratching during sterilization, transportation and clinical handling.

- High rigidity & reliable mechanical strength, clip-fixed design to prevent unwinding
- Good electrical insulation property
- Compliant with ISO 10993 and USP Class VI
- Compatible with EO, gamma and autoclave sterilization
- Standard color: Natural translucent (Custom colors upon request)

Product Dimensions (mm)

Model #	Supplied ID		Supplied OD	
	INCH	MM	INCH	MM
BH-MT-GDC-2/3	0.079±0.004	2.00±0.10	0.118±0.004	3.00±0.10
BH-MT-GDC-2.5/3	0.098±0.004	2.50±0.10	0.118±0.004	3.00±0.10
BH-MT-GDC-2.5/3.5	0.098±0.004	2.50±0.10	0.138±0.004	3.50±0.10

Other sizes could be customized on request.
